

Harish's Sniper Trading Setup — NY Session Swing Model + \$15 to \$1500 Battle Plan

Time Zone Reference (IST)

- **London Session:** 12:30 PM – 4:30 PM IST
 - **New York Session:** 5:30 PM – 10:30 PM IST
 - **NY Lunch / Rebalance Zone:** 9:00 PM – 9:45 PM IST (EDGE ZONE)
-

Objective

Build a high-RR, low-frequency trading system based around: - **Liquidity sweeps** - **Order Blocks (OB)** - **Break of Structure (BOS)** - Executed during **NY Lunch retracement** - Optimized for **college schedule**

Framework

Timeframe Stack:

- HTF Bias: **4H / 1H**
- Setup Confirmation: **15M**
- Entry & Execution: **5M (Optional)**

Trade Setup Steps:

1. **Mark London High/Low**
 2. Identify **liquidity zones**: Equal Highs/Lows, Trendline bounces, Session extremes
 3. Wait for **liquidity sweep** during NY Open (5:30 – 7:00 PM IST)
 4. Confirm **BOS/CHoCH** on 15M
 5. Identify **Refined OB** or FVG
 6. Set entry during **9:00–9:45 PM IST** into retracement
 7. Set:
 8. SL: Below OB or inducement wick
 9. TP: Next HTF liquidity or imbalance
-

Risk Management

- Account: \$15 (Cent account preferred)
 - **Phase 1 Risk (Months 1–3):** 1% per trade (\$0.15)
 - **Phase 2 Risk (Months 4–6):** 1.5% per trade (if consistent)
 - **Phase 3 Risk (Month 6+):** 2% per trade max (only if profitable with tracked stats)
 - Max trades/week: 2
 - Max losses/week: 2
-

Journaling (Track every trade)

Date	Pair	Setup Type	Liquidity Swept	BOS Confirmed	Entry Time	Result	RR	Lessons
		OB Sweep	Yes/No	Yes/No		Win/Loss		

Trade Review Questions

1. Did I enter after a clear sweep?
2. Was there a BOS or CHoCH?
3. Was I disciplined with time and size?
4. Did I follow the 9:30 PM sniper window?
5. What would I do differently next time?

\$15 to \$1500 Battle Plan (12-Month Compounding Strategy)

Month 1-2 (Foundation Phase)

- Objective: Build execution habits, no rush for growth
- Focus: Only take **A+ setups**, refine sniper model
- Risk: 1% per trade
- Win target: 5 trades, >2R, no FOMO
- Account Goal: \$15 → \$25

Month 3-5 (Momentum Phase)

- Start slow compounding
- Slightly increase risk to 1.25% if profitable
- Add micro deposits if possible (₹500-1000/month)
- Journal 100% of trades
- Account Goal: \$25 → \$100

Month 6-9 (Aggression Phase)

- Risk up to 2% per trade **ONLY IF** win rate > 50% & avg RR > 2R
- Focus on size management, scale in winners
- Withdraw nothing. Let equity build
- Account Goal: \$100 → \$500

Month 10-12 (Consistency Phase)

- Begin funding challenge prep OR small withdrawals
- Maintain trade quality — 1 sniper/week

- Stretch goal: \$500 → \$1500
- If under \$1000: Recycle Phase 2 + add small capital

Monthly Reflection Format

Month	Trades Taken	Win %	Avg RR	Equity Growth	Emotional Score (1–10)	Main Lesson
-------	--------------	-------	--------	---------------	------------------------	-------------

Mindset Reminders

"You aren't here to be lucky. You're here to be lethal."

"Let others chase profits. You chase execution perfection."

"\$15 is not capital. It's proof you're serious enough to earn more."

This is your battle plan. Stick to it. Improve it. Execute it.

No rush. No noise. Just sniper precision.
